I told the representative the plan is not acceptable to us, as it will likely take years to complete. I am awaiting a call from a supervisor to discuss directly with him or her.
- e. A decision regarding the level of required EMS training for our career firefighters is pending further research and discussion. Whatever decision is made should be included with the upcoming contract negotiations.
- f. As approved at last month's meeting, the project to display the Squad 88 patches on career staff uniforms is nearly complete.
